Medical Laboratory Technologists Association of Pakistan (MLTAP) is the non-profit and professional organization which represents Medical Technologists and Laboratory professionals specifically. It is the first, only and specific platform of Allied Health Professionals which involved in educational and research related activities in the field of Lab. Technology. MLTAP provides its services not only in all Pakistan but also in UK, South Africa, Denmark, Middle East, KSA and Gulf countries. MLTAP came into existence in April, 2009 at the historical hospital and city Nishter Medical College/Hospital, Multan. The aim of this association is to highlight the core issues of the field and awareness programs to meet with latest techniques of diagnosis and day to day research. For this, MLTAP has been conducting educational activities at different levels in Medical Institutions throughout the country like arrangements of seminars, workshops, training etc.
